throughout the year
inc. weekends

DBS check
required

Community Outreach and Event Volunteer

Community outreach and event volunteers help share the river with new people. This varied role includes helping at community events, country shows, in schools and on guided walks..

No prior experience in this role is required but we ask that you volunteer with us in a conservation role before to understand what we do. This is a great way to gain experience working with children and the general public

We attend community events throughout the year but mostly in the summer season. The hours for this are irregular and reflect bookings. We may also visit schools during term time.

We provide training and mentoring. We pay volunteer travel expenses and for a compulsory DBS check.

This volunteering role is only open to those over 18s. Our volunteering programme is open to all but a good level of spoken English is required for this role.
